Workshop equipment

X-TREME SERIES

50-200kW

CUSTOM HIGH POWER INDUCTION HEATER

X-treme series machines are induction heaters designed specifically to meet the needs of the heavy industries. With a power that goes from 50 to 200kW and its compact dimensions, this series of machines is perfect for the assembly lines.

We can produce customized equipment and heating inductors that adapt perfectly to the kind of work you have to carry out.

You can simply connect the machine directly to the cooling system of the factory.

Our systems use IGBT of latest technology, planned to resist high power and protected from short circuit, overcurrent and misusage.

PRACTICAL APPLICATIONS

- Assembly lines
- Steel rolling mill
- Steel industries
- Steel furnaces
- Foundries
- Steel hardening
