

# TEKNEU®

## Workshop equipment

### LIGHTNING 3000

12mm cut	PLASMA CUTTER
----------	---------------

Cut metal up to 12mm thick in a fast way with our plasma cutter Lightning 3000 and you get a precise cut. You only have to connect it to the compressed air and it's ready to use.

#### TECHNICAL FEATURES:

Dimensions and weight: 15x26x43cm - 10KG  
 Supply: 230V@50/60Hz  
 Compensation ±10% power grid  
 Overvoltage supply protection  
 Automatic control of the pilot arc  
 Max cut thickness: 12mm  
 Security device for operator  
 Duty cycle: 35%-25A-90V; 60%-17A-86,8V;  
 100%-13A-85,2V

### TEK-WELD 3000

140A	MMA + TIG WELDER
------	------------------

An efficient welding machine ready and easy to use. You can use it both in TIG and in MMA mode, thanks to its specific torches interchangeable in few seconds.

#### TECHNICAL FEATURES:

Dimensions and weight: 15x26x30cm - 8Kg  
 Supply: 230V@50/60Hz  
 MMA mode output current: 10-140A  
 TIG mode output current: 10-140A  
 Duty cycle (10 min at T=25°C): 35%@140A  
 Anti-sticking  
 Contact start  
 Hot start  
 Microprocessor controlled  
 EMI filter  
 Overheating protection

### AVAILABLE WELDING TOOLS

#### WELDING KIT INCLUDING:

- Helmet for standard welding
- Hammer for beating weldings
- Spatula with iron bristles

AUTO-DARKENING HELMET "LION KING 2" FOR WELDING
