

## Wheel alignment systems for trucks

LASER LINER is an alignment system for trucks, trailers and semi-trailers, designed to be extremely easy to use and to carry out your work in the least time possible. Using Teknel Laser Liner is so easy that you don't need to attend any specific course.

This new model is the perfect combination of technology and experience: it offers all the functionalities of the former version together with sophisticated electronics, which make this tool even more precise and reliable.

With Teknel Laser Liner you can measure toe, alignment, camber and caster of an axle in only 5 minutes, without lifting the vehicle or make any adjustment.
